DAVID DUKE
FOR PRESIDENT

Inside is the Platform of the Populist Party of America and its 1988 Presidential Candidate, David Duke, and his running mate, Floyd Parker.

Vote Populist Party

ECONOMIC

REPEAL THE INCOME TAX. Paid almost entirely by the productive middle class, the super-rich pay very little of it and the indolent poor none of it. Endorsed by the Communist Manifesto and by corrupt capitalists bent on buying the votes of the welfarites it has become the main prop for socialism.

REASSERT SOVEREIGNTY by abolishing the privately owned and controlled Federal Reserve System. The international bankers operate the greatest scam in history. They create their funny money literally out of thin air—**and then charge us interest on it!** Thus, we have ever-higher interest rates, unending inflation, perpetual war and an interest-bearing "national debt" of more than $10,000 for *every* man, woman and child in America. The *per capita* interest on this fraudulent debt is $1,000 per year—and **you pay it with your income tax!** The Populist Party will end this swindle, give America real money and solid prosperity.

REPUDIATE THE NATIONAL DEBT. The taxpayers have the moral and legal right to repudiate all federal debt except that held by investors who have actually paid for government securities with money they have earned. The official national debt now stands at approximately $2,500,000,000,000 (two trillion, four hundred billion dollars). The interest alone on this debt now stands at approximately $130 billion per year and is steadily rising along with the principal. Interest paid each year to the unconstitutional, privately owned Federal Reserve Bank accounts for the third highest item in the national budget. National survival requires that this debt be extinguished and we will do it. Failure to do so will bring either runaway inflation and the total destruction of our economy or a depression far worse than the one of the 1930s. Approximately one-half of the official federal debt con-

sists of securities owned by organizations which did not (repeat, DID NOT) invest earned money in them but which literally manufactured "funny money" out of thin air to "buy" said investments! One of the purposes of the Populist Party is to EXPUNGE this fraudulent debt the same way it was created—by a stroke of the pen. The Supreme Court or Congress could abolish the Federal Reserve at any time and the federal government could begin issuing debt-free, interest-free money as the Constitution intended instead of borrowing it from mattoid international bankers.

REACTIVATE ANTI-USURY LAWS. When a person buys a house these days he often pays lending agencies for three houses. Interest paid on funny money created out of thin air is the main cause of inflation and recession. Private lending agencies, if they are allowed to exist at all, should be strictly controlled by restored anti-usury laws.

REJUVENATE AMERICAN INDUSTRY BY THE ENACTMENT OF FAIR TARIFF LAWS. The Populist Party will protect American manufacturers and workers by enacting tariff legislation to equalize cost at the water's edge, thus bringing back millions of jobs for Americans.

REVITALIZE THE FAMILY FARM. To save America's most precious resource—the vanishing landed American family farm—The Populist Party promises price parity to family farmers but not agri-business corporations or absentee owners. Foreign ownership of land will be prohibited. The foolish system of paying farmers not to farm in the midst of a starving world will be brought to an end.

REBUILD AMERICA INTERNALLY. Many of our highways and bridges are in bad need of repair even as the Democrats and Republicans send billions of dollars overseas. Hundreds of

thousands of unemployed will be put to work rebuilding America's vital transportation and communications systems.

RECLAIM FREE ENTERPRISE. International parasitic capitalism is incompatible with nationalism and with free enterprise. Business should be free of government interference except when it tends toward monopoly, when law is used to reestablish competition. Government regulations such as are found in OSHA and the mountains of red-tape now hampering businessmen will be eliminated. Except for regulated public utilities, no business will be permitted to dominate the market.

THE FAMILY

RESURRECT ANTI-DEGENERACY LAWS AND CRACK DOWN ON CRIME. America was founded on the values of traditional Christian morality. Until recently states and local governments and in some cases the national government were able to enact and enforce laws against pornography and lewdness. These powers should be reinstated. An immediate crackdown on illegal drugs, street crime and organized crime followed by sure and swift punishment will once again make our beloved country a safe and moral place for all law-abiding citizens.

REJECT ERA AND GAY RIGHTS. Legally women already have more rights than men, and that is the way the Populist Party intends to keep it. Homosexuality is not only immoral, it is perversion and should not be recognized as a legitimate life style deserving special legislation and forcing normal people to accept them. The Populist Party recognizes a responsibility to fight this growing social disease.

CULTURE

RESTORE FREEDOM OF CHOICE. Forced racial busing must end. Government interference with

religious schools must cease. State's rights with regard to public schools and universal freedom of choice with regard to property rights must be restored. Restore medical freedom (see below.)

RESPECT RACIAL AND CULTURAL DIVERSITY. Every race has both the right and duty to pursue its destiny free from interference by another race. The Populist Party opposes slavery, imperialist exploitation, social programs which would radically modify another race's behavior, demands by one race for another to subsidize it financially or politically as long as it remains on American soil, forced segregation or integration. The Populist Party will not permit any racial minority, through control of the media, culture distortion or revolutionary political activity, to divide or factionalize the majority of the society-nation in which the minority lives.

REPULSE IMMIGRATION. Repeal the Third-World-oriented immigration law of 1965 and replace it with one which works to preserve America's cultural heritage in the face of a population explosion among backward peoples and a no-population growth among the founding stock of the nation. At present there are an estimated 15 million illegal aliens in our midst. They should be found and deported. Our borders must be sealed off from this traffic at all cost or the country will be destroyed from within after it has first been bankrupted.

RECONSIDER THE WELFARE PROGRAM. Welfare for the truly needy only. Deny the franchise to persons on welfare for more than one year. Welfare will cost the taxpayers $100 billion this year, and is rising fast, with some 30 million on welfare today. Rebuild democracy, help bring prosperity back to the producers of society and bless the taxpayers by getting this vast class of socialist-voting, taxpayer-financed drones off the voting rolls. No representation without taxation.

LEGAL

RENEW CONSTITUTIONAL GOVERNMENT BY RESTRICTING JUDICIAL REVIEW. Thomas Jefferson, the first great populist, saw the seeds of the destruction of the Republic in usurpation of power by federal judges. These alleged protectors of our liberties have now become their chief destroyers. Congress should curb the power of these dictatorial judges to interfere in the reserved rights of the states. Court decisions regarding such issues as school prayer, abortion, criminal rights which have strayed far from public wishes would be negated. All federal judges—including Supreme Court justices—should be elected.

REAFFIRM THE RIGHT TO KEEP AND BEAR ARMS. The Second Amendment must be vigorously protected from the criminal element both private and public.

RESERVE THE RIGHTS OF INDIVIDUALS TO SEEK MEDICAL HELP FREE OF GOVERNMENT INTERFERENCE. Limit the power of government to say who can and who can't engage in a particular profession. Stop the unconscionable denial of health foods and vitamins to people who want and need them. Permit cancer victims the treatment of their choice.

REASSERT AMERICAN CREATIVITY. Inventiveness should be encouraged. Make this country energy independent, economically secure and healthy by providing for more freedom of choice and less bureaucratic hampering of creativity.

REJUVENATE DEMOCRACY BY ALLOWING MORE PARTICIPATION IN GOVERNMENT BY THE PEOPLE. Amend the Constitution to provide for the direct election of the president after regional primaries and the direct election of federal judges. Initiative, referendum and recall should be encouraged at all levels of government and in all states. The people themselves

should be able to vote directly on vital issues. Bring proportional representation to America.

FOREIGN POLICY

REESTABLISH THE AMERICA FIRST TRADITION OF ARMED NEUTRALITY. First laid down by President George Washington, our national policy of nonintervention in foreign wars in which the United States is not directly endangered served us well. Our reckless intervention in two European wars served only to strengthen the power of our communist and internationalist enemies. Two wars in Asia have been bogged down in a no-win, no gain, foreign policy that has made us the laughing stock of the world. Our allies in Europe and Asia should be forced to provide for their own defense as we gradually withdraw our armed forces. Our aggressive meddling in the Middle East must cease. The Western Hemisphere is within our sphere of influence and should be defended from communist subversion.

RESTRICT FOREIGN PRESSURE GROUPS. There can be but two foreign policies: nationalist or internationalist. The America First Populist Party will curb foreign influence in our government. "One World" is treason so it follows that internationalists at the executive level must be removed from office. Bankers' front groups, like the one world-oriented Council on Foreign Relations, the Trilateral Commission and the Bilderbergers, set our foreign policy at the present time. The United States should withdraw from the United Nations and remove the United Nations from American soil.

REDUCE FOREIGN AID and use it only where our vital national interests are at stake. Now it is little more than another way for the international bankers to rip off the taxpayers. We should help backward economies by showing them the advantages of the free-enterprise system and helping them to become self-sufficient. Military aid

should be given only to dependable allies and surplus foodstuffs bought directly from our farmers and shipped overseas must be kept from falling into the hands of corrupt officials. Shipping advanced technology and military equipment to our enemies is treason. American capitalists virtually built the Soviet war machine, fulfilling Lenin's prophecy that the capitalist would sell the rope to hang himself if he can make a profit on it.

REVITALIZE AMERICA'S NATIONAL DEFENSE. Any arms control agreement would require on-the-site inspections. We distrust our enemies. We cannot afford to be at a disadvantage in any way on military matters. The Populist Party seeks no conflict with other nations and will work to stay out of their affairs but we are not pacifist. We demand no less than a second to none defense force. Waste, inefficiency, and non-military extravagance should be weeded from the Pentagon. Because we are not a police state that fears its own people the Populist Party opposes a peacetime draft.

REWARD FRIENDS, not enemies. The Soviet empire could easily be destroyed simply by aiding dozens of ethnic dissident groups inside the Iron Curtain. But the mattoids need communism to scare the people into tolerating massive taxes and a huge war budget, *a la* George Orwell's "1984." Proof: They send billions of your tax dollars to communist-leaning countries like Zimbabwe but criminally ignore the needs of the heroic nationalists in Afghanistan waging a bloody struggle for independence.
